

SAP S/4HANA TRAJECTORY

WHY MIGRATE TO SAP S/4HANA? AND HOW?

SAP S/4HANA solution is a major breakthrough in the world of SAP ERP and is at the heart of companies' digital transformation initiatives. Given the benefits of SAP S/4HANA and the planned obsolescence of the current version, adopting SAP S/4HANA has become a major challenge in the roadmap for SMEs, mid-sized businesses and large groups. PASàPAS assists you in defining your SAP S/4HANA roadmap.

What are the stakes ?

BUSINESS

Does my information system meet my company's strategic goals?

What kind of transformation can be done to increase business efficiency?

IT

Is my information system efficient enough to perform tomorrow?

Is it sufficiently properly used?

Can my information system migrate to SAP S/4HANA and how?

BUSINESSES

Is my information system adapted to users' needs?

Do my users really understand the solution and its ergonomics?

Approach

1 ASSESS

Understand your IS main technical and functional characteristics.

Identify target infrastructure characteristics.

Drive data migration: assess your customer/supplier base.

Assess if the migration from your IS to SAP S/4HANA is possible and define prerequisites.

2 EXPLORE

Discover SAP S/4HANA in a standard environment set up in the PASàPAS cloud.

Explore new features and new tools.

Analyse the opportunities for your business stakes.

3 STRUCTURE

Define the transformation or migration project's main characteristics.

Assist you in the internal promotion of the project.

Propose a short and medium term roadmap.
